Student Billing

Residence Hall and USAC residents are billed by the Accounts Receivable Office for long distance calls. (One resident in each USAC apartment is billed for basic service.) Telecommunications call detail statements are mailed each month.

Charges must be paid monthly to avoid losing service and incurring a reconnection charge (non-refundable) of \$10.

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

ISU uses Direct Dial and International Direct dial rates, updated quarterly. Direct Dial calls and International Direct Dial calls are discounted.

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION - It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and, if convicted, are subject to imprisonment and/or fine.

Data Network Information

The Iowa State University Data Network provides connectivity between computers, terminals, and local area networks throughout campus. This gives users the ability to access any machine on the data network with the appropriate software.

- Asynchronous/Synchronous Network (ISN)
- Terminal Server
- FDDI/Ethernet Network
- Internet Gateway

To establish service:

Faculty/Staff - contact departmental Telecommunications coordinator

Students - contact Telecommunications - 271 Durham Center

Connecting to Campus Inbound Modems

ISN connected:

Several inbound modems are connected to the ISN enabling off-campus callers to access the network, via modem, by dialing one of the following numbers:

294-1200	(1200 baud)
294-2400	(2400 baud)
294-9600	(9600 baud)

When "CONNECT" appears:

PRESS	<ENTER> until "DIAL" prompt appears
ENTER	address you want to call (i.e. ISUVAX, WYLBUR, HELP)
PRESS	<RETURN>
	Log in as usual

When you finish, follow appropriate logoff procedures. If "DISCONNECT" does not appear on your screen, enter the disconnect sequence (<BREAK> <BREAK>).

Terminal Server connected:

Several high-speed inbound modems are connected to a terminal server that provides direct access to the Ethernet network. Use these modems only if you have a 14,400 baud modem or a 9600 baud modem with data compression. To access these modems, dial:

294-enet (294-3638)

When "connect" appears, press <ENTER> to view the menu option.

Note Scholar and the Outbound Modems are only available from the ISN. If you wish to use these services, you must first connect to the ISN (see Terminal Server).

Connecting to Campus Outbound Modems

Using the ISN outbound modem pool, callers may also connect to off-campus systems reachable by modem. Outbound modems are Hayes-compatible and support 300-, 1200-, 2400-, and 9600-baud connections, with speed setting controlled automatically. Additional features such as auto-reliable mode and data compression are activated automatically if the answering modem supports them.

To use the outbound modems:

At the "DIAL" prompt:

TYPE	modem
PRESS	<RETURN>

When the Campus Network replies with "ANSWERED", your terminal is connected to an outbound modem.

TYPE	ATZ
PRESS	<RETURN> to reset the modem to its default settings. When "OK" appears on your screen, you are ready to call out from the network.

To place on-campus calls:

TYPE	ATDT + 4XXXX
PRESS	<RETURN>

To place off-campus local calls:

TYPE	ATDT + 8 + seven-digit number
PRESS	<RETURN>

Note When placing long distance calls, you must use an authorization code; you will be charged regular long distance toll rates. To obtain an authorization code, call the Telecommunications Office at 294-8585.

To place long distance calls:

TYPE	ATDT
	8 + 1 + area code (if outside 515) + seven-digit number
	W
	authorization code
PRESS	<RETURN>

The "W" tells the modem to wait for the dial tone before dialing your authorization code.

When the modem connects to the remote system, "CONNECT" (speed) (mode) is displayed, where (speed) indicates the baud rate, and (mode) indicates special features such as RELIABLE or COMPRESSED.

Press <RETURN> a few times to get a login prompt; then log in as usual. When you finish, follow appropriate procedures; then hang up from the modem by entering your disconnect sequence (<BREAK><BREAK>).

Terminal Server

The terminal servers provide a gateway between the ISN and FDDI/Ethernet network.

To access the Ethernet network from ISN:

At the ISN "DIAL" prompt:

TYPE	"ETHERNET" or 'ENET'
PRESS	<ENTER>
VIEW	"RINGING" and "ANSWERED"
PRESS	<ENTER>
VIEW	MENU OPTIONS

To access ISN from Ethernet (required only to use Scholar or Outbound Modems):

Telnet to host isn.rdns.iastate.edu

For more information, refer to the Computation Center User's Reference Memo 39 (Logging in to ISU Computers) available in 195 Durham Center.

Temporary Data Protection

When using your telephone with a modem for data calls activate Temporary Data Protection to prevent any interruption for the duration of your data call.

To activate:

LISTEN	for dial tone
PRESS	113

NOTE Lightning may damage equipment connected to a power source or a communications jack. The Telecommunications Office is not liable for damage caused by electrical storms. Surge protectors will not guarantee protection. We recommend that you disconnect both the power cord and communications cable during electrical storms.

Sexual Harassment Information/Assistors

A student or employee who believes s/he has been subjected to sexual harassment may wish to seek out information about sexual harassment and methods to deal with it. By obtaining information, the student or employee will be better able to make informed decisions regarding the matter.

Information concerning sexual harassment may be obtained through the Student Counseling Service, the Dean of Students Office, the Employee Assistance Program and the Women's Center. In addition, the university has designated offices that provide assistors for those individuals who feel they have been subjected to sexual harassment. An assistor is an individual who can provide support, explain alternatives and accompany a complainant to a mediation or complaint session. The following individuals have been designated as assistors by their respective college, office or department:

* The Determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.*
